

# Charades

Now that you have learned about some of the chores from long ago, it's time for you to give them a try in a game of charades!

The goal of the game is to act out the chores listed on the cards and have the other players guess what you are doing.

How to play:

1. Print and cut out the cards. Place them face down in a bucket or hat. Make sure no one sees them!
2. Each player takes a turn choosing one card from the bucket. Close your eyes while picking and make sure to only look at the card you chose.
3. Do your best to act out the chore on your card. To make it trickier, you are not allowed to talk when you are acting.
4. The other players all try to guess what chore you are doing.
