

Create a Star Finder

Materials:

- 1 tube
- 1 piece of black construction paper
- 1 copy of the constellation template
- 1 push pin
- *Optional: markers, stickers, construction paper, a white crayon*

Steps:

1. *Optional: Decorate your tube with stickers, construction paper, and markers!*
2. Choose a constellation. Cut out the circle from the template sheet.
3. Use the lid from your tube to trace a circle on black construction paper. Cut out the circle.
4. Place the constellation on top of the black circle and use a push pin to punch holes in the black dots.
5. *Optional: Connect the dots and label your constellation in white crayon.*
6. Place completed black circle inside the lid of the can with the white writing on the inside.
7. Hold your tube up to the light and see your constellation!
